SUMMARY

Full Stack Developer with 2+ years of experience building and maintaining web applications using React.js, JavaScript, TypeScript, C#, .NET, SQL, and Umbraco CMS. Experienced in frontend and backend development, CMS customization, reusable component development, responsive UI implementation, debugging, testing, deployment support, and production maintenance. Hands-on project experience includes MERN stack applications, AI-enabled tools, and modern web platforms using Next.js, PostgreSQL, Prisma, pgvector, and REST-based workflows.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, LESS

Backend: Node.js, Express.js, C#, .NET, Razor

Databases: MongoDB, PostgreSQL, SQL, pgvector

CMS & Tools: Umbraco CMS, Prisma, JWT, Context API, Figma, GitHub, n8n, Swiper, GSAP

Other: Python, REST APIs, Responsive Web Design, Debugging, Testing, Deployment Support

PROFESSIONAL EXPERIENCE

Full Stack Developer

July 2024 – Present

27 Technologies Pvt Ltd, Kochi, Kerala

- Develop and maintain frontend and backend features for web applications using React.js, JavaScript, C#, .NET, SQL, and Umbraco CMS.
- Build and customize CMS-driven pages and reusable components for live client projects in Umbraco.
- Convert Figma and design assets into responsive, pixel-perfect interfaces aligned with business and design requirements.
- Deliver frontend enhancements, bug fixes, and production support for client-facing applications.
- Implement interactive UI features and visual elements using Swiper and GSAP.
- Support testing, debugging, deployment, and ongoing maintenance for live websites and web applications.
- Complete assigned tasks within or before estimated timelines while maintaining code quality and functionality.

MERN Stack Intern

June 2023 – January 2024

Luminar Technolab, Kochi, Kerala

- Built responsive web interfaces using HTML, CSS, and JavaScript during hands-on full stack development training.
- Developed single-page applications using React.js.
- Worked with Node.js and MongoDB to build dynamic web applications and strengthen full stack development fundamentals.

PROJECTS

AI Business Assistant

Production-ready AI chatbot platform designed to answer business-specific queries using Retrieval-Augmented Generation and a secure company knowledge base.

- Built with Next.js, React, TypeScript, Tailwind CSS, PostgreSQL, pgvector, Prisma, Zod, and Google Gemini.
- Included company settings management, document upload and chunking, FAQ matching, semantic vector search, streaming chat, and an admin dashboard.

Project Fair

Full stack project showcasing and managing user projects.

- Developed functionality for uploading, managing, and sharing projects.
- Implemented authenticated access and project listing features using React, Node.js, Express.js, MongoDB, JWT, and Context API.

Receipt Parser

AI/ML-based automation tool for expense consolidation.

- Contributed to receipt information extraction from image and PDF files using OCR and AI workflows.
- Supported document-processing and automation concepts aimed at reducing manual effort for business users.
- Technologies used: React, TypeScript, Tailwind CSS, Python.

Lungarno Collection

Umbraco CMS-based hospitality web application.

- Built frontend components and customized CMS-driven pages.
- Converted design assets into responsive UI components.
- Implemented interactive sections using Swiper and GSAP.
- Technologies used: HTML, JavaScript, LESS, C#, Razor, Umbraco.

Rocco Forte Hotels

Umbraco-based hospitality web application.

- Contributed to developing and integrating offer pages within the Umbraco application.
- Supported frontend implementation and component integration based on project requirements.
- Technologies used: Razor, C#, CSS.

EDUCATION

Bachelor of Computer Application

June 2019 – May 2023

Calicut University – Computer Science, Malappuram, Kerala

GPA: 3.09/4.0

CERTIFICATIONS

MEAN / MERN Full Stack

January 2024

Luminar Technolab

- Completed a 6-month intensive full stack training program covering MongoDB, Express.js, Angular/React, Node.js, REST APIs, JavaScript, HTML, CSS, and web development.
- Achieved A+ grade.

MEAN / MERN Full Stack Certification

May 2024

National Council for Technology and Training (NACTET)

- National certification awarded upon successful completion of the MEAN/MERN Full Stack program with A+ grade.
